Our loan products include our Line of Credit lending. If you've already been approved for a line of credit loan, you have convenient access to funds to help wrap up those holiday expenses. Pay off high interest credit cards, store accounts or replenish the wallet with your line of credit.

Don't forget about our Pet Care Line of Credit. Financing routine or emergency pet care may be easier than you think. Have you considered applying?

You may also be able to take advantage of our Skip-A-Payment. Keep your loan payment money in your pocket! Ask us if you're eligible and use those funds for fun.

Money matters

Crane and Co., a Massachusetts based company, has been providing the U.S. Bureau of Engraving and Printing with paper for U.S. currency since 1879.

Federal Reserve notes are a blend of 25 percent linen and 75 percent cotton. Currency paper has tiny red and blue synthetic fibers of various lengths evenly distributed throughout.

It would take 4,000 double folds, forward and backwards to tear a banknote.

No matter the denomination, the weight of a banknote is approximately 1 gram.

The Bureau of Engraving and Printing allots \$826.7 million to print cash each year. The Monopoly game people, print around \$50 billion worth in game money annually.
