Autumn 2021

What happens on October 21, 2021?

International Credit Union Day

Celebrated the third Thursday in October since 1948, International Credit Union Day recognizes the global credit union movement. Credit unions and other financial cooperatives are doing tremendous work around the world giving members financial opportunities that change their lives. According to the World Council of Credit Unions, at the end of 2019, there were 86,055 credit unions operating in 118 countries, serving 291,432,972 members.

Please join us Thursday, October 21st, for refreshments in our lobby as we recognize credit union achievements world wide.

Great SHAKE OUT Earthquake Drill

Since November 2008, participants of the Great Shake Out earthquake drill have been practicing to Drop, Cover, Hold. Over 11 million people last year took part in learning the four basic steps of earthquake preparedness.

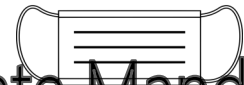

- 1.) Secure your space and identify hazards and moveable items.
- 2.) Plan a safe disaster plan and decide how to communicate in an emergency.
- 3.) Organize disaster supplies and locations.
- 4.) Minimize.

Staff at the credit union will once again practice our disaster recovery plan. Each year we not only practice keeping ourselves and each other safe, we also secure credit union records. We work hard at ensuring member information is always kept safe, particularly during an emergency.

On 10-21-21, at 10:21am, we will use the opportunity during the Great Shake Out, to rehearse our plan. You can also participate. To learn more or to register visit: shakeout.org
