Credit unions nation wide mark April as Credit Union Youth Month. By educating and encouraging our children to save and manage their money, they'll have a healthy start to their financial future. Saving can be fun! Watching those pennies grow into dollars and dreaming about what those dollars can buy, can be part of the lesson for budgeting. When children start young to learn the value of money, they develop good financial habits early.

Is your child or grandchild a member? We offer youth savings accounts for those under 15 years of age with minimal deposit requirements.
