## An update on your Mastercard Debit Card

Be on the look out!

Coming at the end of July, all Longshore Federal Credit Union cards will be upgraded to a new servicing platform. What this means for you:

- You will be receiving a new Mastercard debit card with a new card number, expiration date, PIN and security code.
- Your new Mastercard debit card will be an EMV chip card for added safety and security.
- Activate your new debit card as soon as you receive it and destroy the old card by cutting it into several pieces or putting it through a shredder.
- You will assign your own unique PIN at the time you activate your new card. Please ensure you activate your card and set the new PIN during the same phone call. Your PIN will not carry over from the old card, however, you may use the same PIN as your old card.
- If you have any pre-authorized or recurring payments on your debit card, such as your gym membership or house utilities, you will need to notify those merchants/billers of your new card information.

We thank you for allowing us the opportunity to continue working for you and your financial well-being. Thank you for your Longshore FCU membership.
